

AMENDMENTS TO THE CLAIMS

1. (Previously Presented) A method of treating arthritis, osteoporosis and ruptured disc comprising administering to a patient in need thereof a pharmaceutically acceptable amount of the compound of formula (I):

in which

R₁ represents a hydrogen atom or an alkyl group; and

R₂ represents a hydrogen atom; along with a pharmaceutically acceptable adjuvant.

2. (currently amended) A pharmaceutical preparation containing as an effective component a compound represented by the following formula (I):

in which R₁ represents a hydrogen atom or an alkyl group and R₂ represents a hydrogen atom, wherein the pharmaceutical preparation

has a potent effect against osteoporosis, arthritis and ruptured disc~~in combination with a pharmaceutically acceptable auxiliary, diluent, isotonic agent, preservative, lubricant and solubilizing aid, which is formulated in the form of a pharmaceutically acceptable preparation and has a potent effect for osteoporosis, arthritis and ruptured disc.~~

3. (Currently Amended) A pharmaceutical preparation containing as an effective component a compound represented by the following formula (I):

in which R_1 represents a hydrogen atom or an alkyl group and R_2 represents a hydrogen atom, and one or more materials selected from the group consisting of allendrate, tamoxifen, vitamin D_3 , parathyroid hormone (PTH), sulfasalazine, thioredoxin reductase, alendronate, raloxifene, calcitonin, estradiol, genistein, 1,25-dihydroxyvitamin D_3 , ~~estrogen receptor modulator~~, biphosphonates, shinbarometin and shinbarometin acetate wherein said pharmaceutical preparation has a potent effect against osteoporosis, arthritis and ruptured disc, ~~in combination with a pharmaceutically acceptable~~

Appl. No. 09/995,691

~~auxiliary, diluent, isotonic agent, preservative, lubricant and
solubilizing aid, which is formulated in the form of a
pharmaceutically acceptable preparation and has a potent effect for
osteoporosis, arthritis and ruptured disc.~~

4. (canceled)
